

How to set up a homework task

To set a homework task, start by entering the class you wish to set homework for – click on ‘Start’.

Next, click on the **Homework** tab along the top of the page.

The homework sidebar will appear on the **Set homework** tab, where homework tasks are published and assigned to pupils. Fill in the form provided to add information to the homework task. The available options are explained below:

Allow pupils to upload homework

Name: This is the title of the homework task that will be visible to staff, pupils and parents.

Describe the task for your students: Use this text area to describe what needs to be achieved in order to complete the homework task.

Issue date: This field indicates when the homework task was set.

Due date: This field indicates when the homework task is due for submission.

Estimated completion time: This field indicates how long it should take pupils to complete the homework.

Upload files: Use this file upload feature to attach supporting documents that pupils may require for completing the homework task.

Add web links: This section of the form can be used to provide pupils with optional links to additional resources that may help them complete the homework task.

Allow pupils to upload homework: Tick this check box to allow pupils to upload homework attachments, which can later be collected.

If you're happy with the homework task, click on the **Publish homework** task button to issue it to pupils in the class. If you wish to start from scratch, click on the **Clear all** button.
